

2022 USDA NASS Estimated County Average Yields for Corn, Soybean, and Wheat in Tennessee

S. Aaron Smith, Associate Professor and Extension Crop Marketing Specialist
Beck Bowling, Extension Specialist
Department of Agricultural and Resource Economics
University of Tennessee

Below is a summary of USDA NASS Estimated County Yields for Tennessee. Data is displayed for all available counties as of March 28, 2023. Additional data can be found at:

<https://quickstats.nass.usda.gov/>

NASS Tennessee Average Yields:

Corn:	130 bu/acre
Soybean:	48 bu/acre
Wheat:	73 bu/acre

Highs and Lows:

For corn, the highest average county yield was Overton County at 196.4 bu/acre. The lowest average county yield reported was Maury County at 98.2 bu/acre (Table 1).

For soybeans, the highest average county yield was Bledsoe County at 66.9 bu/acre. The lowest average county yield reported was Hardin County at 38.5 bu/acre (Table 2).

For wheat, the highest average county yield was Montgomery County at 83.2 bu/acre. The lowest average county yield reported was Cannon County at 55.8 bu/acre (Table 3).

Planted acres varies between counties

USDA FSA Planted Acres by County and Commodity:
